COMMUNITY

The village of Canastota is located at the geographical center of New York State. This village has approximately 5,000 residents. Canastota is a rural community with easy commuting distance to Syracuse and Utica. Many residents enjoy the life of a small community and the easy access to the educational and cultural benefits of two cities. Canastota is the home of the Boxing Hall of Fame and several large companies that ship goods all over the country.

Mathematic Annotation: Requires 85% on Three Mathematic Regents Examinations

Science Annotation: Requires 85% on Three Science Regents Examinations

Curriculum

Canastota High School offers a comprehensive academic program. All students are encouraged to take a minimum of 6 courses each semester and may accelerate in mathematics and science. Canastota offers Advanced Placement courses in Calculus and numerous college courses through Onondaga Community College, Mohawk Valley Community College and Tompkins Cortland Community College. Students may also choose one of a variety of technical programs at Madison-Oneida Board of Cooperative Educational Services.

Grading and Ranking Policy

All courses at Canastota High School use a numerical system of grading. Scores range from 1-100, with 65 as a passing score. Final grades are determined by averaging the four marking period grades and the final examination if the teacher chooses to administer a local final examination. Regents examinations are reported separately on the transcript and are not included in the course final average.

Class Rank

This calculation is completed at the end of the junior year and again in the middle of the senior year for those students completing a Regents or a local diploma.

Rank and Weighting of Grades

Grade Point Average will be unweighted. The District shall utilize a ranking system in which the students' 6-semester and 7-semester Grade Point Average will be weighted for ranking purposes only. Any course that is offered at Canastota Junior Senior High School that is sponsored by a college in that the curriculum is determined by that college will be weighted 1.1. Advanced Placement (AP) courses will be weighted 1.1. Where a student repeats a course, the highest final grade earned in that course will be used for ranking purposes. Courses not used in calculating rank are Drivers Education, Physical Education and Work Study. Beginning in 2018-2019, honors courses will be weighed 1.05.
